

The Deep Purpose and Meaning of Leadership Program

AI Gallery Day™ For Executives

Culture, Transformation, Inclusion Program

Since 2022, 41 North Business School has been at the forefront of blending art and artificial intelligence technology, pioneering a new approach in executive education methodology for the next generation. In the 'Deep Purpose & Meaning of Leadership' Program, leaders embark on a unique journey, deepening their understanding through creative coaching sessions. They also have the opportunity to transform their vision and leadership impact into works of art using artificial intelligence. This program sets high individual and team goals, shaping the culture through descriptions of the 'hero's journey'. Additionally, it involves strategy adaptation steps and roadmaps for achieving these goals.

Unleash Your Full Potential

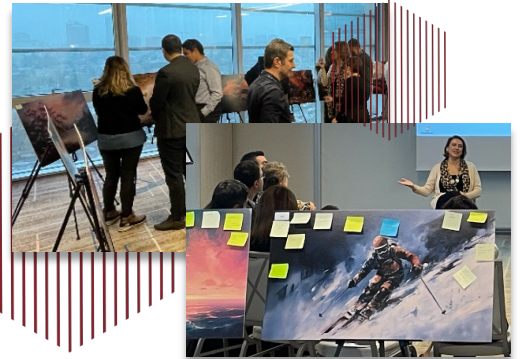

Assess your leadership using psychotherapeutic and creative techniques, uncover your strengths in your leadership presence, delve into your innermost "self-meaning" through personalized one-on-one creative coaching sessions, have faith in the process to unveil your leadership vision, and identify your distinctive role within the management team—this is the manifestation of your professional potential without limits.

Artful Evolution

Thanks to our proprietary method merging artificial intelligence and art, transform your leadership approach into a distinctive visual masterpiece. Accompanied by a creative coaching methodology, immerse yourself in the process of creating your unique work of art. Experience AI Gallery Day™ as a leadership team, where you uncover the focal point of your collective leadership transformation and capture a systemic perspective, drawing inspiration from your individual paintings.

Contributions

- 🎯 Leadership Meaning Awareness with AI Support
- ⚙️ Connecting with Culture and Values
- 🎯 Agility Learning Support
- 🎯 Honoring Cultural and Individual Diversity

Who Will Learn?

Executive-level professionals with 15+ years of leadership experience, of all nationalities, aged 35+.

What You'll Learn?

Embark on a transformative journey guided by personalized coaching and facilitation, delving into self-discovery through art and AI-driven analysis. Engage in sessions to confront challenges, explore creativity, and reflect on personal and professional growth.

How You'll Learn?

You'll be guided by 41 North Business School's unparalleled thematic creative coaching method and intermodal experiential approach, supported by art and artificial intelligence. During the bespoke AI Gallery Day™ led by experienced facilitators, you'll integrate your personal insights, observe the diverse perspectives of the entire management team, draw inspiration from one another, and weave together your collective journeys.
